PREFACE.

Notwithstanding the increased facilities we have each year added to our printing office, and the advantages derived from experience, the date of issuing the Directory has been delayed several weeks beyond the time we had proposed. Many circumstances, each, equally beyond our control, have contributed to embarrass us more than ordinarily. But, having the office now amply supplied with all the type and printing material necessary, we shall, next year, fit up a press room, adequate in its accommodations to print the Directory sheets, under our own immediate supervision; this, being the only portion of the present work not done in our own office. The want of a steam press has been one cause of the delay; another, and not the least vexatious cause has been the extreme difficulty experienced in obtaining the necessary information, the canvasser, in many localities, being regarded as an enrolling officer under the conscription law. Considerable loss of time, and consequently money, has been thereby incurred. In quite a number of houses we have been unable, with all the diligence and ingenuity which intelligent and reliable agents could exercise, to obtain the names. On page — will be found a list of those houses where information has been stubbornly withheld; in many cases, however, we obtained the names from other sources, and in these instances, we have felt it our duty to the public to mark the parties so refusing information.

Since the issue of our last publication the city of Chicago has continued to progress in material prosperity to an extent unexampled in the history of this or any other country. The actual increase of names over last year's edition is *four thousand nine hundred and eighty-three*, which, computed at the usual average, would give the present population of Chicago at *one hundred and fifty thousand souls.* We are satisfied, that if a thorough census of the city were now taken, that our estimate would prove an under one. What a glorious contrast then does this Directory, of 1863, present to that one, of 1844, only nineteen years ago, in which the publisher, proud even then of the promising growth of the infant city, boastfully announced that the population of Chicago was nearly, if not quite, eight thousand. At that time, a well known, and then, as now, respected citizen of Chicago was laughed at by his friends when he expressed his belief that he should live to see the day when Chicago would contain one hundred thousand inhabitants. It is to the public spirit and far-seeing sagacity of such citizens that Chicago owes the prosperity which has elevated her to her present proud pre-eminence.

This conclusive evidence of the onward march of the city to metropolitan greatness, is the more gratifying from the fact, that while our people have nobly responded to every call of the Government for both men and money in this trying time of the country's need, we still multiply and increase, while the older cities of New York, Boston, etc., exhibit, by their Directories a very perceptible decrease in names.

But it is not in population alone that her progress has been so marked. From the abundance of material which is every day presented to us, and which, from its very familiarity, is passed by with an almost unheeding glance, we select a few figures, and place them on record for future reference and comparison.

To begin with the Grain Trade. There are now in operation in our city eighteen grain elevators, the aggregate capacity of which are as follows:

CATTLE AND PORK.

From the reliable and excellent annual circular of Henry Milward, Esq., we extract the following interesting items concerning the CATTLE AND PORK TRADE OF THE CITY for the season of 1862-3:

"Last year inaugurated a new era in the annals of Chicago. From being a comparatively minor Pork Packing point, she advanced to the second in importance in the United States, while in Beef Packing she maintained the prominent position she some years since assumed.

This year she has far outstripped in both branches all competitors, and although her Beef Packing does not sum up as large as last season, the decrease has been owing entirely to the extraordinary absence of demand for the packed product which has existed through the year. But in Pork Packing the improvement has been extraordinary and unexampled. Eight first class packing houses, models of perfection, and replete with every modern improvement, have been erected since last season, while several smaller establishments have also during the same time sprung into existence. Large, however, as has been the accommodations provided, it has been found entirely insufficient for our increasing requirements, and already several first class houses are under contract for erection during the ensuing summer. It is fair to infer that our Provision trade is yet in its infancy, and that the future of Chicago as a packing point may be regarded as one of the most extreme promise. We have this season eclipsed all competitors, leaving New York, Cincinnati, and other formerly considerable packing points, far behind."

HENRY STOKES, Pres.

An Allotment of Dividend of Thirty per cent., free from Government tax, has been made on all participating Life, Joint Life, and Endowment Policies on which two or more annual premiums have been paid.

The time for adjustment of the dividends is at the date of payment of the present year's premiums.

In periods of general disquiet and anxiety for the future, such as the present, the condition of the various Life Insurance Companies is, to many thousand families, a source of greatest interest, for, should death occur to the head of many families, what resource would remain to the helpless widow and orphan but the life insurance policy?

In view of this, the great prosperity of the Manhattan Life Insurance Company must be a source of gratification to many thousands who are insured with us.

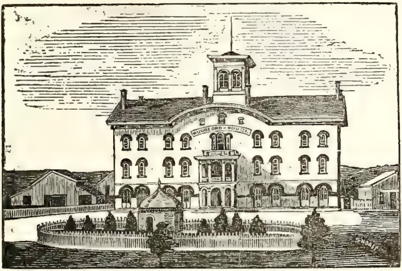
ILLINOIS WATER CURE,



AND HYGIENIC INFIRMARY.

This is one of the largest and finest HEALTH INSTITUTIONS in our country, just completed at a cost of over thirty thousand dollars, and better furnished than any other Hygienic Cure in America. Our ELECTRO-THERMAL

BATH APPARATUS

is the most complete, thorough, and expensive in use.

Dr. Nevins has had eight years' experience in the practice, has been the last five years at the head of the Illinois Water Cure and Hygienic Infirmary in the City of Peoria, where the greatest success has attended his ministrations.

At this Health Castle all forms of diseases are treated upon strictly scientific principles. All patrons of Dr. Nevins may be assured of all the care and delicacy of attention they could desire from intimate and affectionate friends. No Institution can more effectually alleviate and afford comfort to Obstetric patients, as our patrons will, without exception attest.

The Institution is surrounded by thousands of acres of the most beautiful wild Prairie and Woodland country in the West for

Rambles, Horseback Rides, Carriage Drives, etc.

Horses, Carriages, Side-Saddles, etc., kept at the Institution.

The Buildings are large, entirely new, and better furnished throughout than any other Hygienic Cure in America.

Situated at Secor, Woodford County, Illinois.

Circulars sent on application.

RATES OF POSTAGE.

LETTERS.

SECTION 1. For every single letter between offices in the United States the postage is *three* cents each half ounce or fraction of a half ounce, where the distance does not exceed three thousand miles; exceeding three thousand miles, *ten* cents each half ounce or fraction of half ounce. The *ten* cent rate is also charged on each single letter, in the same manner, from points in the United States east of the Rocky Mountains to any State or Territory on the Pacific, and from any State or Territory on the Pacific to points in the United States east of the Rocky Mountains. Prepayment required.

SEC. 2. The postage on each single letter to and from the British North American Provinces for any distance not over three thousand miles from the line of crossing, is *ten* cents the single rate, and for any distance over three thousand miles, *fifteen* cents the single rate. Prepayment optional. The prepayment of anything less than the full postage is not regarded.

SEC. 3. The mode of rating letters to and from foreign countries differs from that observed in respect to domestic letters. Except France and the British North American Provinces, (letters to which are rated the same as domestic letters,) all letters for foreign countries are charged with a single rate of postage if not exceeding the weight of half an ounce; double rate if exceeding half an ounce but not exceeding an ounce; *quadruple* rate if exceeding an ounce but not exceeding two ounces, and so on, charging two rates for every ounce or fractional part of an ounce over the first ounce. For instance, a letter directed to England is chargeable with twenty-four cents for a half ounce; with forty-eight cents if it weighs over a half ounce but not exceeding an ounce, but with ninety-six cents if over an ounce but not exceeding two ounces. Special care should therefore be taken, before posting letters to foreign countries, to ascertain accurately the weight, for any payment less than the *whole* is not regarded, and the sum paid *is entirely lost to the sender.* [See Special notice.]

SEC. 4. Drop letters, one cent each. Prepayment by postage-stamps required. BRANCH OFFICES: *All* letters delivered from Branch Offices are chargeable with *one cent* extra each, to be collected on delivery. Letters deposited in the Branch offices for the mails must be prepaid only by a one cent postage-stamp in addition to the regular postage; and so in respect to letters intended for delivery in the city through the principal office. But a letter deposited in one Branch office and delivered through the same, or from the same office, is chargeable with only one cent prepaid by a postage-stamp, the additional cent being collected on delivery. Letters deposited in the principal office for delivery through the Branches, to be rated in like manner, the additional one cent being thus collected on delivery.

PRINTED MATTER, &c.

SEC. 5. *Each* transient newspaper, periodical, unsealed circular, or other article of printed matter, (except when otherwise stated below,) when sent to any part of the United States, one cent for the first three ounces, and one cent for each additional ounce or fraction of an ounce. Prepayment by postage-stamps required.†

SEC. 6. Newspapers and periodicals to regular subscribers, one half of the above rates; and when circulated in the State where published (and not exceeding one and a half ounce in weight) one-quarter those rates, in both cases to be paid quarterly or yearly in advance. Weekly newspapers sent by the publishers to actual subscribers in the county where published, *free*. Regular dealers in newspapers and periodicals may pay postage by the package, as received, on newspapers and periodicals, at the same rate as if paid quarterly or yearly in advance.

SEC. 7. Books, bound or unbound, maps, engravings, lithographic, or photographic prints on rollers or in paper covers, phonographic paper and letter envelopes, in *packages* not exceeding in any case four pounds, one cent an ounce or fraction of an ounce to any place in the United States *under* fifteen hundred miles, and at the rate of two cents an ounce or fraction of an ounce *over* fifteen hundred miles, prepaid by postage-stamps. Same rate on cards, either blank or printed, and blanks in packages weighing *at least eight ounces*, and seeds or cuttings in packages *not exceeding eight ounces*, prepaid by stamps.*

SEC. 8. Packages of small newspapers published monthly or oftener, and pamphlets containing not more than sixteen octavo pages, when sent to one address in single packages weighing *at least* eight ounces, and prepaid by postage-stamps, may be sent to any part of the United States at one-half cent an ounce or fraction of an ounce. [See Sec. 15.]

SEC. 9. *Corrected proof sheets* are charged with transient newspaper postage [read Sec. 5] in case the corrections be those only of typographical errors; but if new matter be introduced by the corrections, or any notations made, the sheets are subject to letter postage. [See letter clause Sec. 15.]

SEC. 10. Newspapers, periodicals and unsealed circulars to and from the British North American Provinces are chargeable with the domestic printed matter rates. [Read Sec. 5 if transient, and first clause of Sec. 6 if to regular subscribers.]

OBSERVATIONS.

SEC. 11. No article will be admitted to the mails that may endanger the safety of other matter; hence glass bottles, and especially those containing liquids, or anything explosive or combustible, are excluded when known to be such.

SEC. 12. Letter postage is chargeable on all packets that are enveloped or sealed so that their contents cannot be known.

---

*NOTE. The prepayment of a sum less than a RATE is not regarded. A letter prepaid one or two cents when the correct rate is three cents, or when the rate is TEN cents and the sum paid is less than ten cents, will be treated as unpaid.

†NOTE. The articles named in this section must be so enveloped or wrapped (if wrappers are used) that the character of the matter may be determined without removing the wrapper. [See Sec. 15.]

NOTE. All packages referred to in Sec. 7 must be plainly marked, showing their contents, and [excepting those containing seeds] so packed that their true character may be seen. [See Sec. 12.] Cuttings must be so secured as not to endanger other packages in the same mails. No written or printed matter, EXCEPT THE ADDRESS AND DESCRIPTION OF CONTENTS, can accompany seeds or cuttings without separate postage thereon. [See Sec. 15.]

SEC. 13. Where more than one circular is printed on a sheet, or a circular and a letter, *each* is chrageable with a single rate. Persons proposing to issue circulars would do well to submit the proof sheets to the postmaster before incurring the expense of printing.

SEC. 14. A business card on an unsealed envelope of a circular subjects the packet to letter postage.

SEC. 15. Any writing or initials on any newspaper, periodical, or other article of printed matter, or on the cover or wrapper thereof, except the name and address of the person to whom it is to be sent, or *anything* enclosed therein, subjects the packet to letter postage. An endorsement, however, simply *describing* the contents of a package is not prohibited. A pen or pencil mark, *made for the sole purpose of calling attention* to a particular article, does not subject such matter to letter postage. When subjected to letter postage *from any cause whatever*, all such printed matter, without exception, must be prepaid in full or it will be excluded from the mail.

NEW
ILLINOIS STATE GAZETTEER

To the Merchants and Manufacturers of the North-West:

The undersigned, having had an experience of many years in the Compilation of Directories and other Statistical works of general interest and utility, has made permanent arrangements for the publication of a series of works on the GREAT NORTH-WEST, and has now in preparation a splendid book of over Six Hundred Pages, to be entitled the

Gazetteer of Illinois.

It will contain a concise and interesting account of every City, Town and Village in the State, alphabetically arranged, showing their location, lines of travel, population, manufacturing, educational, religious and social statistics, together with a list of names of

ALL PARTIES DOING BUSINESS ON THEIR OWN ACCOUNT,

With their Full Name, Business, and P. O. Address.

Editors, and all parties interested in the progress of the State, are earnestly requested to communicate to the undersigned any information of a local or general nature, calculated to add to the utility of the work.

A large force of competent and experienced Agents have been engaged, who will be supplied with written authority, specifying their duties and powers; and as the entire information for this work will be taken from actual canvass, we respectfully solicit for our Agents the attention and courtesy of County and City Officials, Editors and Business Men generally, upon whom they will call for information.

No effort on our part shall be wanting to render this work a faithful mirror of our great and growing State. The book will be handsomely printed, on fine white paper, and durably bound in cloth boards, and will be sold, to subscribers only, at $3.50 per copy. To enable the sale of so large and costly a work at so low a price, it is of course calculated on a very large Subscription List. Copies will be forwarded free to any part of the United States upon receipt of the amount.

A Special Department of the work will be reserved for the display of Business Cards, at low rates, considering the natural character of the work. In order to secure choice places early application to the undersigned will be necessary; and, to avoid disappointment, all contracts for special places must be made with the Publisher, personally, at the office, for Chicago, and of the authorized agents.

JOHN C. W. BAILY,
PUBLISHER,
130 SOUTH CLARK STREET,
P. O. BOX 1439. CHICAGO, ILL.

JOHN C. W. BAILEY,

In presenting the annexed Prospectus, deems it necessary, for the information of tho outside of Chicago, to say that he is one of the regular Publishers of the CHICAGO CITY DIRECTORY, jointly, for the past three years.

That in order to assure such as are unacquainted with him, of his reliability in performing the above enterprise, he adds the following card, and complimentary endorsement, signed by many of the leading citizens of Chicago, which will be sufficient evidence of his earnest intention to perform every promise in the foregoing Prospectus, and secure the confidence and aid requisite in compiling and publishing a work that will be eminently useful to every Professional and Business man in the State of Illinois, and also in the Wholesale Business Houses in four Eastern Cities.

We, the undersigned business residents of Chicago, believing that HALPIN & BAILEY, the publishers of last year's DIRECTORY, and Thomas M. Halpin, who has compiled the CITY DIRECTORY for the last *four years*, will publish as good a DIRECTORY as it is possible to do, we recommend them to our fellow citizens, for their patronage and support.

It may be proper to add that on a former occasion, in 1857, one of the above Publishers, (J. C. W. Waughop, Orrington Lunt, Cyrus Bentley, and a number of other well known and influential citizens.
